SHOWERS

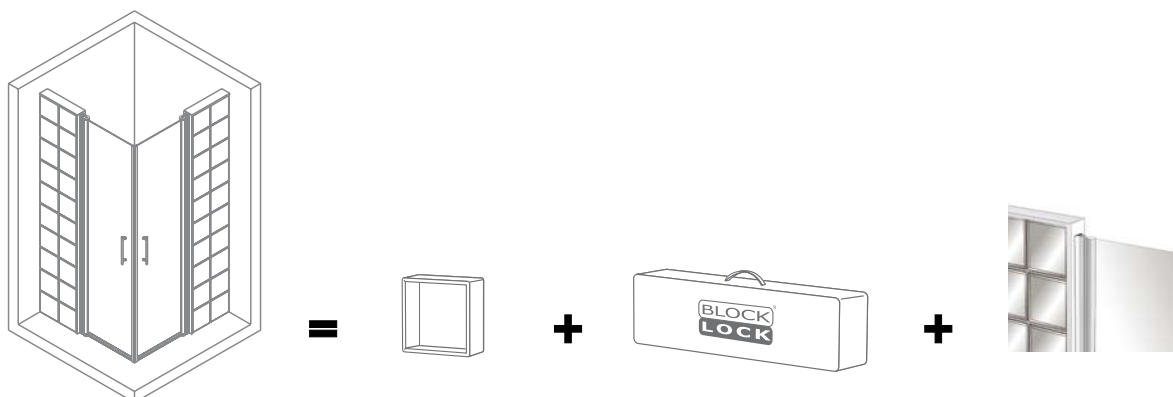

# Waikiki Shower Collection - All included

The Waikiki Collection. Complete and modern shower cabins built from glass block walls and glass doors. All connected with the super simple Block Lock system available in installation sets suitable for each shower model. Due to this the choice and purchase of each shower model is extraordinarily simple. All the component elements of each model in a prepared and convenient package.

## Glass blocks? - The choice depends on you

Coloured, clear, classic or Pegasus? Or perhaps Mendini? The possibilities are endless. From which glass blocks you choose to the given model of Waikiki depends on your imagination and the imagination of your clients. With the aid of the Block Lock Original system you may join the 19 x 19 cm glass blocks of any producer in the world.

Block Lock in Pegasus version - enables you to apply the glass blocks of the popular Pegasus range available in the Design collection produced by SEVES.

### Mounting doors

Mounting shower doors to glass blocks is no small undertaking. But not for walls built with the aid of Block Lock system. PVC foam mounting strips placed in the gaps between blocks enable stable mounting of heavy doors with the use of classic screws.

### Regulated profile

Patented system for mounting and closing shower doors to floors depending on the angle of opening (+/- 5 mm). The system enables the precise regulation of the opening and closing point of doors.

### Block Lock Sets

Easy and convenient system for constructing walls from glass blocks, which are parts of the whole Waikiki collection. Available in special installation sets suited to each Waikiki model.

## Build Waikiki showers - quickly and... safety!

Convenient and simple in use the Block Lock system is available in convenient mounting sets. There are "Original" or "Pegasus" sets to choose from, depending on which glass blocks you choose for the installation. Each of the sets is precisely matched to each Waikiki shower model.

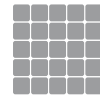

However the unrivaled and most important characteristic of Block Lock is the high quality of the materials from which the walls are built. Due to this all elements of Waikiki showers are solidly connected to each other and safe in use.
